# KFV Plug & Play

plug-in solutions

## Your benefits<sup>3</sup>:

- ❶ Only one material number for one set
- ❷ All components are preassembled
- ❸ Quick assembly and installation, modular design

Our products and solutions bring spaces to life  
and give people a sense of well-being: [www.roomcomfort.com](http://www.roomcomfort.com).

Window systems

Door systems

Comfort systems

## Extremely practical.

It doesn't get more practical than this: With the new KfV Plug & Play sets for the KfV GENIUS and multi-point locks with A-opener, secure, user-friendly equipment for front doors is simpler than ever. For fabricators this means secure process sequences and the possibility of attractive additional business transactions that offer end users a high degree of room comfort. To meet the highest demands on Smart Home concepts, the new Plug & Play sets can also be supplemented by optional extension kits which permit control via WIFI or io-homecontrol.

### **Installation made easy.**

Besides access control and power supply, the sets for front doors in all frame materials include all the necessary components for fast commissioning on site. The complete sets, which as the only solution currently on the market can be ordered as a time-saving package via one single material number, impress with their variety of pre-wired components with cable connections and plug-in connectors. The focus for the development of the sets was also on high resistance to oscillation and on encoded, snapping connections that exclude reverse polarity. This creates the conditions for error-free installation even without employing qualified electricians.

## All-in-one.

### **Benefits for fabricators**

- Only one material number for one set including access control system, power supply and all necessary cables
- No electrician required
- Error-free ordering and installation
- Quick assembly and installation
- Time savings due to preassembled components
- With cable connections and coded plug-in connectors
- Protected against polarity reversal, locks into place, resistant to oscillation
- Modular design
- No missing components
- Future-proof due to possibilities for extension e.g. for somfy io-homecontrol

Specially for use  
in timber doors.

**\*Basic components of all sets:**

- Adapter for the GENIUS A electromechanical drive or A-opener
- Connection cable between drive and cable transfer
- Both position magnets in round and oval version (one magnet is omitted if an A-opener is installed)

The following extension kit (consisting of cable type K and adapter type B) is additionally required for the use of sets with a GENIUS type B multi-point lock or GENIUS PANIC.

**Material number:** 3505917

**KfV Plug & Play  
set A**

**Components of the set:**

- Basic components\*
- Frame power supply with preassembled cable transfer 180° with 20 mm casing
- KfVkeyless Bluetooth keypad

**Material number:** 3505908

**KfV Plug & Play  
set B**

**Components of the set:**

- Basic components\*
- Frame power supply with preassembled cable transfer 180° with 20 mm casing
- Bluetooth fingerscanner 3.1

**Material number:** 3505909

**KfV Plug & Play  
set E**

**Components of the set:**

- Basic components\*
- Top hat rail power supply
- Cable transfer 180° with 20 mm casing
- Connection cable between cable transfer and top hat rail power supply
- KfVkeyless Bluetooth keypad

**Material number:** 3505912

**KfV Plug & Play  
set F**

**Components of the set:**

- Basic components\*
- Top hat rail power supply
- Cable transfer 180° with 20 mm casing
- Connection cable between cable transfer and top hat rail power supply
- Bluetooth fingerscanner 3.1

**Material number:** 3505913

Specially for use  
in metal or PVC doors.

**\*Basic components of all sets:**

**Material number:** 3505917

**KfV Plug & Play  
set C**

**Components of the set:**

- Basic components\*
- Frame power supply with preassembled mini cable transfer
- KfVkeyless Bluetooth keypad

**Material number:** 3505910

**KfV Plug & Play  
set D**

**Components of the set:**

- Basic components\*
- Frame power supply with preassembled mini cable transfer
- Bluetooth fingerscanner 3.1

**Material number:** 3505911

**KfV Plug & Play  
set G**

**Components of the set:**

- Basic components\*
- Top hat rail power supply
- Mini cable transfer
- Connection cable between cable transfer and top hat rail power supply
- KfVkeyless Bluetooth keypad

**Material number:** 3505914

**KfV Plug & Play  
set H**

**Components of the set:**

- Basic components\*
- Top hat rail power supply
- Mini cable transfer
- Connection cable between cable transfer and top hat rail power supply
- Bluetooth fingerscanner 3.1

**Material number:** 3505915
