## Lift & slide All-inclusive package COMFORT UNIT.

### Cut to length, drilled, pre-assembled.

With the COMFORT UNIT for our ECO PASS threshold, installing lift & slide elements can now be done more efficiently than ever. Manufactured according to your individual specifications, you receive a complete package with all the hardware elements from the bogie wheels and the guiding rail up to the threshold. All components are cut to the exact millimetre, individually pre-drilled and, thanks to their high degree of pre-assembly, save both time and money in production and logistics. Ordering with our order forms is remarkably easy. This way, you can easily win over end users with the threshold's many strengths.

Economical  
and compact.

### Benefits for fabricators

- ECO PASS threshold, fully assembled and drilled with frame corner connection, mid-section, support rail and adapter rail, complete with all seals and mounted running rail
- Including all hardware components such as bogie wheels, gears, handles, etc.
- No inventory risks such as discontinued items, soiling or damage; less stock means more space
- Manufacturing cost savings
- No manufacturing risks in terms of miscutting, incorrect drilling, etc.
- No waste, no cutting scrap
- For PVC or timber elements

### Benefits for end users

- Thanks to the floor-level threshold absolute barrier-free accessibility improves quality of life
- Excellent thermal insulation from at least 12 air chambers in the threshold providing greater room comfort
- Minimal condensation thanks to a sophisticated material combination of aluminium and PVC
- Maximum light incidence in the ECO PASS SKY threshold version due to frameless glazing on the threshold
